1. Introduction

Since its inception in 1987, the province's *Pay Equity Act* has been the leading piece of legislation in compensation for women in the workplace Ontario. The proactive Act was written to involve societal change to redress systemic economic bias against women by job class within their employment.

In addition to enforcement, the Pay Equity Office recognizes the need to support the proactivity of the law and will enhance its reach through assistive resources and availed connectivity to help practitioners and employers achieve and maintain pay equity.

The PEO will also collaborate with motivated stakeholders who have workplace insights and knowledge of best practices, as well as the desire to deliver change program outcomes, which are all imperative to creating opportunity and realizing meaningful growth.

2. Mandate, Strategic Priorities, and Key Activities

2.1 Mandate

The Pay Equity Commission (the Commission) was established by section 27 of the *Pay Equity Act*, R.S.O, 1990, c.P.7. Its purpose is to redress gender discrimination in the compensation of employees employed in female job classes in Ontario.

The Commission consists of two separate and independent parts: the Pay Equity Office (PEO), headed by the Commissioner, and the Pay Equity Hearings Tribunal (the Tribunal), headed by the Chair. Both the Commissioner and the Chair are appointed by the Lieutenant Governor in Council.

The Minister of Labour, Training and Skills Development represents the PEO and the Tribunal in Cabinet and its Committees, in the Legislative Assembly and before Committees of the Legislature. The Minister is accountable to the Legislature for the PEO's and the Tribunal's fulfillment of their mandates and their compliance with statutes and government administrative policies. The Minister is also responsible for the review and approval of their Business Plans and Annual Reports. This Business Plan has been prepared in accordance with the *Agencies and Appointments Directive*, the *Guide to Developing Business Plans for Provincial Agencies*, Treasury Board Secretariat, June 2016, and the *Guide to Developing Business Plans for Provincial Agencies*, Ministry of Labour, Training and Skills Development, November 2019.

The PEO offers information to help employers and employees understand their rights and responsibilities under the *Pay Equity Act*.

The PEO also investigates complaints alleging contravention of the *Pay Equity Act*. Staff of the PEO work to help parties resolve their dispute on their own; where the parties are unable to reach agreement, staff of the PEO will resolve the dispute by issuing an Order or Notice of Decision.

Where the PEO issues an Order or Notice of Decision, a party may appeal the Order or Decision to the Pay Equity Hearings Tribunal, which has exclusive jurisdiction to determine all questions of fact or law that arise in any matter before it. The decisions of the Tribunal are final and conclusive for all purposes.

2.2 Overview of Current and Future Activities

For 2020-2023, the PEO prepared a new three-year strategic plan which sets out a vision and mission based on a set of values, and outlines strategic directions and initiatives to achieve these goals.

2.2.1 Vision, Mission, and Values

Vision: A society where economic equality is the norm.

Mission: Promoting positive conversations, success stories of change, helpful resources, and mindfulness of equality.

Values:

Respect – The PEO values respectful and fair conversations around pay equity, both internally and externally.

Openness – The PEO is approachable and accessible in sharing its knowledge and expertise as a trusted resource with its stakeholders and clients.

Impact – The PEO connects with stakeholders and clients to educate, catalyze, change, and build an economy where economic equality is the norm.

Service Excellence – The PEO provides a professional, expert, constructive, and value-added service to its stakeholders and clients.

2.2.2 Strategic Plan and Key Directions

The PEO has identified three strategic directions that will drive it towards the achievement of its vision and mission:

- A. Expand reach and relevance
Foster systemic change to narrow the wage gap and other related matters.

- B. Build resource accessibility
Become an Ontario government resource centre on women in the workplace.

- C. Strengthen service delivery
Modernize the PEO's customer service approach to facilitating the achievement of pay equity.

2.2.3 Key Activities, Service Delivery Enhancements, Efficiencies

The PEO will implement this strategic direction through a series of initiatives:

A. Expand reach and relevance

Foster systemic change to narrow the wage gap and other related matters.

- 1. Reframe the PEO
 - Reflect a positive tone and brand.
 - Modernize the messaging to encourage productive conversations and tangible action.
 - Ensure accessibility and approachability of the PEO.
- 2. Build the communications capacity of the PEO
 - Optimize existing technical resources and channels (e.g. website) to reach broader audiences more effectively.
 - Expand the Office's existing reach to help employers improve their understanding and practice of the law.
- 3. Build new, and deepen existing, stakeholder relationships
 - Support the Commissioner in building and expanding engagement with current and new stakeholders.
 - Establish strategies for engaging stakeholders in meaningful ways.
 - Boost external communications and promoted supporters for women in the workplace.

B. Build Resource Accessibility

Become an Ontario government resource centre on women in the workplace.

- 1. Explore new and expand existing opportunities to educate and train
 - "Train the trainer" to maximize the reach of the PEO's education efforts.

- Work alongside stakeholders to provide innovative training opportunities and education.
 - Develop proactive resources for information seekers, to enable employers and employees to understand more about pay equity and related matters.
2. Build collaborative networks to disseminate the PEO's and others' resources
 - Expand the PEO's reach through collaboration and partnerships.
 3. Tailor information to different audiences
 - Aggregate, consolidate, and curate information into a resource hub for economic equality.

C. Strengthen Service Delivery

Modernize the PEO's customer service approach to facilitating the achievement of pay equity.

1. Adopt the principles of a modern regulator
 - Expand the use of best practices and technology.
 - Foster continuous improvement in administrative practices and procedures, including a customer service approach that is assistive and approachable.
 - Leverage staff knowledge and experiences to enable operational and process-related improvements on an ongoing basis.

3. Environmental Scan and Risk Management

3.1 Environmental Scan

Ontario represents half of Canada’s population, including more than seven million workers employed by half a million businesses. Of those businesses, more than 95% are small or micro, i.e. 1-99 employees, which represents more than 85% of the Ontario workforce. Ontario has the most linguistically diverse population in Canada – nearly half of the province’s population speak one of about 200 languages as their first language.

The globally-connected economy that Ontario is a part of means that the PEO’s day-to-day operations could be affected by unforeseen shifts that could happen on both short and long term horizons, and anywhere in the world. Therefore, this environmental scan and risk assessment are based on identifying categories of impacts on the PEO’s operations, rather than on an attempt to predict specific events. As a result, the PEO has contingency plans to effectively mitigate risk regardless of the nature of any specific event.

3.2 Risk Identification, Assessment, and Mitigation

External Factors

Parties may also challenge PEHT decisions by applying to the courts for a judicial review. As of the time of this writing, a case with significant potential for change (<i>ONA v.
